

Basic Manners Puppy Training Classes – Puppy Manners, Puppy House Training, Puppy Socialization Classes.

Sheba and I have been joining Dennis' training sessions since Sheba came home from the Humane Society and we started with puppy classes. Sheba gets so excited when she sees we're going to the facility. Dennis is so patient with both dogs and humans and he is always willing to change up the class or session to meet the needs of the dog, be it getting the dog's attention or giving them something more challenging to do. We enjoy our training sessions. I thank Dennis for helping Sheba become a fantastic dog and me to become a better friend and partner to her.

Course Goals

To support the Life Long Goals, every detail of this course is built around achieving the following course goals.

By the end of this course, students will know:

- **How Puppies Learn**

Understand how dogs learn by association (the world is either safe or dangerous for the puppy) and consequence (it works for the puppy or it doesn't work for the puppy) and the implications of these learning modes for training and living with dogs. Yes training a puppy can be fun.

- **Fear and Aggression Prevention**

Understand the importance of bite inhibition and socialization in preventing aggression. Be able to provide positive social experiences for their new puppy and install bite inhibition.

- **Basic Needs**

Understand the basic physical and mental stimulation needs of dogs and how to provide for them.

- **Behavior Management**

Understand the importance of and be able to implement management strategies to prevent unwanted puppy behavior. Topics covered> house training puppies, proper chew toys for puppies, crate training for puppies, puppies that jump, puppies that bark, aggression in puppies and prevention, puppy separation anxiety.

- **Reinforcement & Motivation**

Understand what is reinforcing for their puppy and be able to use this knowledge to effect positive training outcomes.

- **Handling and Focus**

Be able to achieve and maintain control of puppy through safe, positive leash handling and positive methods of focusing puppy's attention.

- **Situational Awareness**

Understand the importance of and learn to always be aware of one's surroundings, and be ready to respond proactively as needed to keep dogs and humans safe and comfortable.

- **Work at the puppy's Level**

Understand the importance of and be able to set reasonable expectations for and assess puppy's behavior and progress based on one's own skills, the pup's experience, and the surrounding situation. (Criteria setting, proofing, and rate are built into the exercises designed to teach this goal.)

- **Problem Solving**

Be able to apply class learning to problem solve positive approaches to real life situations.
